

Sorbonne Université

Paris, France

Established in 2018

Best know for

ANU is a world-leading university in Australia's capital city, Canberra. Our location points to our unique history, ties to the Australian Government and special standing as a resource for the Australian people.

Our focus on excellence in research and education ensures our graduates are in demand the world-over, well-prepared to address complex contemporary challenges.

3 things you should know about the university

On 1 January 2018, Paris-Sorbonne merged with Pierre and Marie Curie University (UPMC), the top French university in science and medicine.

It houses the European Marine Biological Research Centre (EMBRC) headquarters in Paris and operates its three marine stations off the coast of France (which make up the EMBRC French node).

Transversal research institutes to tackle today's complex challenges, medical institutes in specific domains that span fundamental research, clinical practice, care and teaching.
